

Professional Services

Design

S&W DESIGN

With a team of architects, interior designers and surveyors, S&WDesign provides an out-sourced design solution for our Customers, either as a stand-alone offer or as an integrated design and build service with all other Styles&Wood solutions.

The range of skills encompasses:

Architectural Services

RIBA work stages A-L, new build properties, acquisitions, extensions and refurbishments, including multi-site roll outs.

Space Planning

Space (Macro & Micro) and commodity planning, loose equipment layouts and scheduling, phasing plans.

Property Initiatives

Internal and external branding, mezzanine insertions, seasonal retail initiatives.

Models & Standards

Brand manuals and model formats, design standards and deployment guidelines, 3D modelling and visualisations.

Surveying

Full or check dimensional surveys (no legacy data), shop fitting, merchandising and product groups, signage, access audits (DDA compliance).
